

**THE
PREFERRED
SOURCE**

/ ELECTRICAL INSTALLATION / ELECTRICAL ENGINEERING
/ PROCESS CONTROL & AUTOMATION
/ INDUSTRIAL / COMMERCIAL WIRING

Hennessy deliver electrical and process engineering solutions to many of NZ's industry leaders.

"I would just like to thank you for the electrical work performed by your company at our warehouse. We were very impressed by the professionalism and the insight that you provided us.

We were also very impressed with the work done by your electrician and his ability to get the job done without disrupting our operations at all.

TRUST HENNESSY

As a leading provider of industrial electrical and control system solutions, we offer assured, expert electrical engineering partnerships. After 30+ years in the business we remain committed to providing a personalised service based on professionalism, integrity and solid relationships.

We collaborate with our clients to provide design, installation and expert service to meet their business needs.

Hennessy's reputation is built on our belief that our client's success guarantees ours. We focus on understanding our client's business requirements to deliver technical solutions which are innovative, practical and affordable.

With a proven track record of 30+ years, Hennessy possess the people, processes, expertise and experience to deliver a single source of proven electrical engineering solutions.

CHOOSE HENNESSY:

- 24/7 Industrial Electrical maintenance and breakdown service
- Plant control system design, assembly and installation
